## Search the GlobalSearch documentation

Welcome to Square 9's GlobalSearch Product Documentation. Here you will find all administrator and end user documentation for GlobalSearch 5.0, Square 9 Softworks' highly scalable solution for Enterprise Content Management.

GlobalSearch 5.0 became available for public release on July 8th 2019. This version of Square 9 Softworks' flagship Enterprise Content Management software includes significant updates to the user experience with enhancements in design, performance and overall user experience within the browser client. There has been a significant focus in this release on the document viewer client with several enhancement found previously only within our LAN client offering. A full listing of the new feature enhancements is available here for your review.

With this release, Square 9 has deprecated the legacy "Tile" design search results option in favor of the much more popular "grid" style design. By standardizing on a single design for search results, Square 9 has created a more functional and dynamic interface for our community to interact with. To learn more about additional product changes in GlobalSearch 5.0, [please click here](#).

Square 9 is confident that the 5.0 release of GlobalSearch will demonstrate our full commitment to continuous product improvement. To arrange for an update to GlobalSearch 5.0 please contact us at (203) 789-0889 today.

## Looking for other documentation?

Running an earlier version? GlobalSearch 4.5 documentation [is found here](#). If you are looking for documentation for other products, choose from the links below to access all available information.
